

# Feedback

Computer Architecture  
Fall 2007

# Summary of 21 respondents

# What Now?

- There is only one more lecture sequence
- Mode shift into Jigsaw Learning about advanced topics
- ... which may feed into final projects
- No midterm, instead, a couple more written, book homework

# Machine Problems

- Too much time for demos outside of class
- Will take a Wednesday and Friday to do the majority in class w/John (if possible)
